

## UEFA, Nyon

Client: UEFA, Nyon  
Frame contractor: Bernard Nicod, Nyon  
Architect: Bassi et Carella, Genève  
Structural Eng.: Guscetti & Tournier, Carouge  
Schopfer et Niggli, Lausanne  
Contractor: Marti, Lausanne

## Execution details

Product: CBCM-E-270 / 315 / 450  
Cobiax surface : 7'400 m<sup>2</sup>  
Max. span: 15,7 m  
Slab thickness: 40, 46, 60 cm

## Benefits

Main reason: weight reduction

Concrete reduction: ~941 m<sup>3</sup>  
Load reduction: ~2'370 to  
Reduction of CO<sub>2</sub> emissions: ~197 to

## Special features

Cobiax combined with circular and radial post-tensioning

## Year of completion

2010
